Housit- hows it?

:HouseCare Mobile Application

Team A : A+   **Minsoo KIM, Seoyoung JO, Seoyoung JIN, Jinwook CHOI, Sooyoung HWANG**
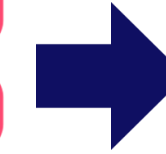

Needs(What & Why?)

high housing cost

safety concern

one-person household → Co-Living

Task-sharing	Expense	Schedule-sharing	Grocery

Task-sharing
- Check assigned chores
- Prevent conflict with fair distribution

Expense
- Provide transparent way to handle shared cost
- Keep tracking how much we costed and saved
- Plan monthly expense

Schedule-sharing
- Coordinate and schedule communal events

Grocery
- Efficient tracking of shared grocery
- Reduce food waste

We create, record, share, and re-find daily information everyday.
BUT, information is dis-organised and scattered.
-> Difficult to find and understand the information you need.
